Sakaisuji Hommachi st. (subway sakaisuji line), approx. 5 mins walk from exit No. 8 or 16

Company Mission Statement

Our mission is to contribute to society by creating various brands of products and services with our “True, Trust, Technologies”.

Our society is dramatically changing through the emergence of IT.

Greater work efficiency, reduction of personnel, opening Internet shops...

There are many things IT can provide you.

Unfortunately, only a limited number of the companies have benefited from the use of IT.

Threet will give you a clear picture of what IT is, how it can benefit you.

Threet will play a part in the IT revolution by contributing to the improvement and efficiency of society.

**“We will always be creative and flexible.
We will implement the commission as a team.”**

We are a company of highly motivated individuals who play an important role, which allows us to contribute to society.

We, Threet, can guarantee please all of our customers, not simply those who utilize our services

but also the customer’s entire company staff, family, etc.!!

【Company Slogan】

Keep in mind our duty to society.

Always be a positive role-model in the community.

Always be creative. Do not always stick to past performance and old ways of thinking.

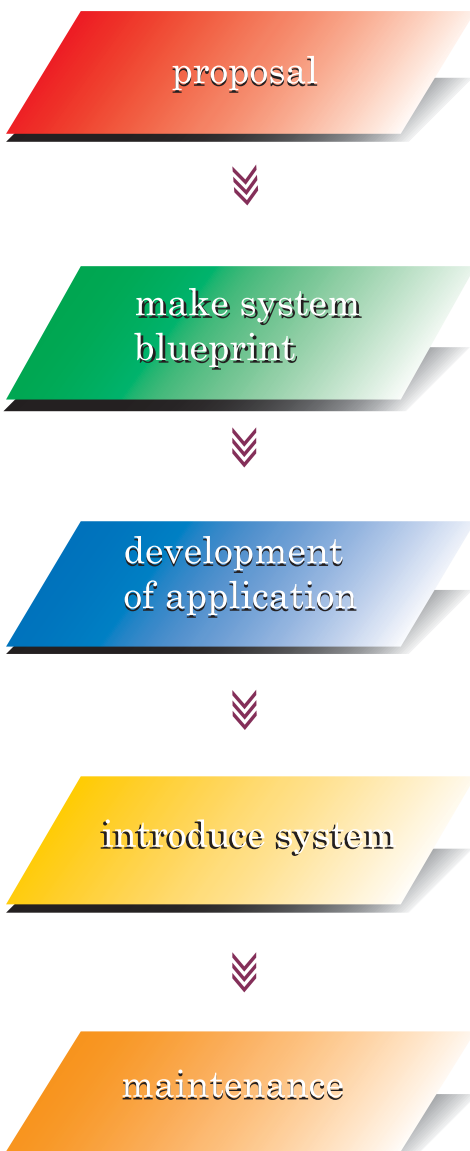

Always strive to improve your skills.

Consider company staff as a family which helps each other.

Development of application

We can offer you a wide variety of solutions for your main system as well as your operation system with our knowledge and experiences.
Our company also provides reliable & consistent customer service to answer any questions that may arise.
